

I fell in love with the Portuguese Water Dog over 25 years ago and have been blessed in owning some amazing and wonderful dogs. They have lovingly taught me more than I could imagine. I am active in conformation, obedience, water work, rally, agility, nose work and breeding.

I have been a member of the PWDCA since 2001 and served on several of their national committees. I was a member of a regional club in the northeast when I lived in Massachusetts and have been a member of USSPWD since 2011, co-chairing the supported entries at the annual National Dog Show in Orlando. I'm also a show committee member of the Jupiter Tequesta Dog Club.

Before moving to Florida I lived in the Boston area and worked at two Harvard Medical Teaching Hospitals in adult acute care and pediatrics. My background has provided me with a constant thirst for canine health and wellbeing.

My dogs have introduced me to many wonderful people, and serving as a member of the USSPWD offers me an opportunity to share what I have learned over the years.
