

Letitia Dort

My husband Chris and I purchased our first PWD in 1998, she was a wonderful little girl named Tiller. In 2015 we were lucky enough to get our little boy Gunner. He has changed our lives. We started off with several obedience classes but once we started water work training there was no looking back. Working as Team Dort we have been able to earn AWD and WWD this year. Joining the USSPWD Club has brought me several new friends and new and exciting activities. I know Gunner loves all the different activities he get to participate in. In 2017, new puppy Coastie joined the family.

Being retired Coast Guard I was drawn to the breed because of their legacy with water work and I have not been disappointed. I am looking forward to continuing to learn everything this sport has to offer.

I am currently a member of the USSPWD Club. I am new to the club but am excited to get involved and assist wherever I can.
